Volunteer, HackerHub8 LLP

Education

Diploma in Information Technology **2024–Present**
Amity University, Greater Noida
CGPA: 7.5

Class X (CBSE) **2024**
RPS Public School, Rewari
89%

Projects

Security Header Scanner **2025**
◇ Built a web-based tool that checks HTTP security headers and generates a security score for websites.
◇ Implemented the backend using Flask and containerized the application using Docker.
◇ Technologies: Python, Flask, HTML, CSS, Docker.
◇

Hospital Management System **2024**
◇ Developed a hospital website interface for viewing doctors, booking appointments, and hospital information.
◇ Implemented responsive front-end pages with interactive navigation features.
◇ Technologies: HTML, CSS, JavaScript.
◇
